I have been waiting for so long
My time has come
It's time for me to take control
I'll put the alien outside

I know your fears I know your faults
I'll be your judge
It's time for me to take control
I'll put the alien outside
The alien outside
The alien outside
The alien outside
Outside...

My time has come
I'll be your judge

I'll put the alien outside!

Please leave my brain
I just don't want
To be your slave forever!

Your time is gone
I'll be your judge
I'll put the alien outside!

Please go away!
No! I don't want
To be your slave forever!

It's time for you
To face the truth
I'll put the alien outside!

Outside!
