"All of Us"

Visit "[All of Us](#)" on MotoLyrics.com

All of us are searching for something
All of us, are we working for nothing?
Years go by and we change with the seasons
The tears we cry is it all for a reason?
I'm hanging on and hope it's not all for nothing
I want to feel, I want to believe in love

All of us are searching for something
All of us, are we working for nothing?
All my dreams and all of my wishes
If it comes I don't want to miss it
I'm holding on believing in something
I want to feel, I want to believe in love

And if you know what it means
Then show me how it feels
Because I want to believe
In love
And if you can make it real
Just show me how it feels
Because I want to believe in love

All of us are searching for something
I want to feel, I want to believe in
I want to fall in love

All of us are searching for something
All of us, are we working for nothing?
