Zero Friction  
In My life

Huge space station  
Man it with a chimp until it dies  
Zero Friction  
Twirling on and on in the invisible sky  
You've been happy since the dawn of time

Silent punk rocker  
Take a break and shut down that guitar  
Sit down and wonder  
Where did the drum machine come from? I dunno!  
You've been unsatisfied for some time

Zero Friction in my life  
Give me Zero Friction

Smiling jet-plane  
You hover happy without fear  
You fire the pilot  
File your flight plan and dry your tears  
You've been gorgeous for so many years

Massive gorilla  
Put down that chew toy and take a break  
And think about the cages  
At the zoo where you spend your whole life eating  
steak  
You've been unstoppable since prehistoric times

Zero Friction in my life  
Give me Zero Friction
