"Path To Freedom"

Visit "[Path To Freedom](#)" on MotoLyrics.com

We are destroying notions
Of ignorance as bliss
Creating our own path, creating freedom
We are destroying values
Passed down to us as kids
Creating our own path, creating freedom

We must suffer, sacrifice for victory
Betray comforts, sacrifice for victory

There are those who share this hardship and pain with
Us
Our brothers and sisters, I would die for you

We are destroying notions
Of ignorance as bliss
Creating our own path, creating freedom
We are destroying values
Passed down to us as kids
Creating our own path, creating freedom

Sacrificing all the comforts and the norms
We pay so much to live this way of life
One man's hell, my dream of freedom
My paradise, a living hell

(Solo Chris)

Sacrificing all the comforts and the norms
We pay so much to live this way of life
One man's hell, my dream of freedom
My paradise, a living hell

There are those who share this hardship and pain with
Us
Our brothers and sisters, I would die for you
