[Verse - Juvenile]

Juvenile and Mario pimping and we on deck  
So stay tune to ya programs cause we on next  
I wanna see the women catching the wall  
Unless she got that disease, no ass at all  
For the hood, for the club, videos or whatever  
I got that oldschool, the Bentley or the Porsche Carrera  
Profiling with the top off  
Wilding, looking for a dime piece I can knock off

[Verse - Mario]

Up in the spot sipping on a little something  
Feeling like this joint's is bout to pop off  
Looking around trying to spot a little something  
Trying to see what somebody talking bout  
And if it's good I'm a lend my ear  
To a little bit of game all up in my ear  
I think I found a window over here  
Homegirl is all up in my face like (boom)  
Oh yes indeed, all we needed is a hell of a beat like  
(boom)  
And we gon to jam cause I'm feeling like a Yeah!  
tonight

[Chorus - Mario]

Hold up it's like (boom!)  
That's that beat we like  
Bet it make the party jump off (boom!)  
DJ spin that twice, we about to tear this club up! (boom!)  
Ladies you gotta move something (boom!)  
Cause the fellas wanna see ya shake something like  
(boom!)  
We got the party getting crunk!  
If you don't give a damn, gon throw it up!

[Verse - Mario]

No more siting on the wall little shorty  
Starting to feel like a stone cold party  
Don't act like you can't sit wit me  
Everybody in the club getting tipsy  
Ain't this beat on fire, DJ spin it back one more time

Fill my glass up one more time  
We gon start it up right on time like (boom)  
Yes indeed, all we needed is a hell of a beat like  
(boom)  
And we gon to jam cause I'm feeling like a Yeah!  
tonight

[Chorus - repeat 2x]

[Verse - Juvenile]

And if we ever bump heads they want to be my freak  
She pulling on me cause she feel that heat

It's aight if you kinda tipsy and you fall off track

She twurking over there, I'm bout to see what she  
thinks

[Bridge - Mario]

Say oh ohhh! Let's take it to the floor (B'More let's go)  
Say yeah! do it like you don't care (WOO! A-Town!)
