So fresh and so new
Have you learned that all good things must come to an
end
I should know
That to be a good lover, I must also be a good friend
Caught between my intolerance and your will to be
everything
You were right, I know you were right

Never could believe that I would keep you down this low
And you didn't have the common sense to leave and let
me go

I call the shots but it's not enough
And you can't be who I need you to be
When I say to leave, please leave me alone
It's just that you have nowhere else to go

On your way
To the ends of the Earth just to come in closer to me
What I lacked is this human heart and sensitivity
Never planned
I keep you on the floor while I slept alone in the bed
I was wrong, yeah I know I was wrong

Never could believe that I could keep you down this
low, no
And you didn't have the common sense to leave and let
me go

You bought me wine, the strawberry kind
All packaged with my favorite CDs
When I opened the box, was worse than I thought
I couldn't stand you, have the decency
To call the shots, when you weren't enough
Cos you can't be who I need you to be
When I say to leave, please just leave me alone
It's just that you have nowhere else to go

No one could believe that I could keep you down this
low, oh no

But you didn't have the common sense to leave, to
leave

You bought me wine, the strawberry kind
All packaged with my favorite CDs
When I opened the box, was worse than I thought
I couldn't stand you, have the decency
To call the shots, when you weren't enough
Cos you can't be who I need you to be
When I say to leave, please just leave me alone
I don't care that you have nowhere else to go
