"Just Me"

Visit "[Just Me](#)" on MotoLyrics.com

Lost my faith, you know I can't believe
When you told me you didn't want me to
I made a vow, I said that I would leave
Before we could resort to what children do

Do you feel it's true?
Do you feel like I do?
Do you feel it's true?
Do you feel like I do?

Watch the phone like I could make it ring
Even though I told you not to try
I made a point to show them I'm so strong
In the darkness they couldn't see me cry

Do you feel it's true?
Do you feel like I do?
Do you feel it's true?
In the end I know just what I should do

Cos I need to believe it's just me
Cos I need some relief, it's just me

See the places that we used to love
And I try to look the other way
You know I can't explain to think that I'm above
All the sadness, give me just one more day

Do you feel it's true?
Do you feel like I do?
Do you feel it's true?
I just tried to show them what I should do

Now I need to believe it's just me
Cos I need some relief, it's just me
And I need to be free, it's just me

(You fill me up, you sew me up, you make me whole
again)
(You take my love, you take my life, you kill my soul
again)

Cos I need you to see, it's just me
(You fill me up, you sew me up, you make me whole
again)
(You take my love, you take my life, you kill my soul
again)

Do you feel it's true?
Do you feel like I do?
Do you feel it's true?
Do you feel like I do?

Now I need to believe it's just me
(You fill me up, you sew me up, you make me whole
again)
(You take my love, you take my life, you kill my soul
again)

Cos I need some relief, it's just me
(You fill me up, you sew me up, you make me whole
again)
(You take my love, you take my life, you kill my soul
again)

And I need to be free, it's just me
(You fill me up, you sew me up, you make me whole
again)
(You take my love, you take my life, you kill my soul
again)

Yes I need you to see, it's just me
(You fill me up, you sew me up, you make me whole
again)
(You take my love, you take my life, you kill my soul
again)

Do you feel it's true?
Do you feel like I do?
