Darn, it's late, it's 7am
I'm on the train that takes me away from you
I'm not in the mood to ?? that this could be my last time
One more year, it's only a moment
No regrets, but I wonder how I will survive
This girl they don't recognise
Because she's lost this piece of her life

Whispers remind me of ??
??
??

Once again I sip some hot coffee
I think of you and I light up a cigarette
It gives me a chance to forget
But God, it feels so good to be back
I need you more, you start to forget me
I feel so lost when I'm based in reality
I hate to feel those clichés
Cos I know I won't be better off this way

Whispers remind me of ??
??
??
??

Months go by, I can't say exactly when
The day arrived, and the wonders were fading away
So taken with this new life
Forgot to tell you goodbye
I can't say why ??
I find myself, I'm lost in a memory with you
Just to relive that one day
But then, just like that, you fell away

Whispers remind me of ??
??
