### "Take Me To Hell"

Night falls and the full moon is glimmering bright  
The sky is growing black stating nothing is sacred  
Tonight

Cry it out, living life in the fast lane  
Break the chains, break the chains to what's holding  
you  
Down

Love of heavens won't make me heavenly  
You try to embrace but your love is not made for me

Take me to Hell

Get me out of here

Heed the call, heed the call from Mephisto's bell  
Consecrate your soul to the message of hell

Take me to hell - Living life in the fast lane  
Take me to hell - Break the chains to what's holding you  
Down  
Take me to hell - Chew And spit it out  
Take me to hell - Lit it and burned it out
