I've lost it all can't find my brain
I turn around and nothing is the same
Information overload it's killing me
The truth be told

The search is complete and it's on my eyes
I've taken in too much and now it's over

Reality od reality od reality od
Just step the fuck away from me
Reality od reality od reality od
I'm not the man I used to be

Set my sights right on the screen
And what I see is so obscene
Humanity is sick in the head
I got my wish I wished that I was dead

I've fallen to the ground
And I don't think I can pick myself up
I'm haunted by the sound
That's burning inside of my head
If we could see that it's all just a wreck
I don't think I could pick myself up
And when I found out how much I could bleed
It seems hardly worth it to me
I can't face reality
