

Engines Of Aggression

"Strange"

Visit "[Strange](#)" on MotoLyrics.com

I knew I'd never find
I knew I'd never so I walked away
I knew I'd never find
In school they never taught that way
It's true in troubled times
They'll do whatever
And they've got to pay
The thought of troubled minds
The thought is comin' off the way

The light at the end to pray for
It's always above they say
It's all down to us to find the way

I see in the night and
It's all come to light
That the lost is saved
We've run out of suicides
The strong now they will survive the day

The light at the end to pray for
It's always above they say
It's all down to us to find the way

I'll find the way
I'll find the way
