We're in debt 'til the end of days
And outcast from the very start
We're just a breath and a drop away
Yet a split and a world apart
I'm a ghost in a grail of blood
Holy dirt loving God
But the flame's gonna melt the clay
Burn a diamond from the mud

I'm not a hostage to my brain
I see through spinning wheels
A mind-maze gone insane
Between me and the real
We fall flat on our backs again
The timeline speeding up
Chicken-race through the Milkyway
And we aint never gonna stop

Like a blow to the inner core
Or a bolt in the womb of night
A crack in the heart of stone
And the whole world comes alive
Like the sound of a single thought
And a notion of time and space
Come a Universe into form
And it bears Your Name and Your Face

We're the riders and the storm
We're the falcon and the prey
We're the carcass and the worm
We're forever and all that fades
We fall flat on our backs again
The timeline speeding up
A chicken-race through the Milkyway
And we aint never gonna stop

It's all for the Lovers
All for the strangers
The battered and beaten
The sulkiest angels
Stationed in cities

Electric and sleepless
That we summon Fire
To bring out the Deathless
