I stand here hoping to be witness to your rebirth
Imagination's running wild and play to test my worth
The silhouette of dreams and fears elude my eternal
Curse
Demons follow in my shadows ensuring it cannot be
worse

I lay here drowning in the unforgiven sins of the past
The oceans of molten stone and embers still flow vast
Visions leave my sight and returns again to haunt
The mental crypts of insanity
Chasing me seem to taste and taunt

Can I ever be forgiven?
Can I ever be free?
Follow the path of the forsaken
As I cry the soul tears bleed

As the end draws near my fate is close to complete
I will be disciplined for voices I beseech
My thoughts scatter as the seasons
Pass by over your head
Reality means nothing to me now
As insanity, I have wed

Can I ever be forgiven?
Can I ever be free?
Follow the path of the forsaken
As I cry the soul tears bleed

I cannot escape the anger of the gods inside my mind
I beg you not to follow me
Out of fear of what you might find
Destiny has played it's part
It's cruelty my only companion
Forever I am free to roam
In the vastness of Oblivion
