Lullabies, butterflies and goodbyes make me cry (oh my)  
They all remind me of you (yeah)  
In the trees honey bees, birdies tweet when they look at me  
They sing dat song about u ( yeah)

Chorus:

Even the clouds can see its over  
And they can feel my hurt inside  
When the sun comes out tomorrow will I feel alright  
Come back to me  
Dry my tears for me  
Won't U hold me one more time  
take my only be my only  
Come back for me one more time  
One more time, one more time, one more time yeah  
yeah  
One more time

Teddy Bears, rocking chairs, it's not fair (it's not fair)  
To share these treasures with me, yeah  
My reflections shows that I'm alone, on my own  
Waiting by the phone, I know u wont call for me yeah

Chorus x3
