Pretty baby don't you know my style?
You can't control me
Cause I'm young and wild
Do you remember you were once a child?
Do you remember you were once a child?
Alright...
Pretty baby all lost in a dream
I wanna know - what have you seen?
I saw a fire and I saw a flood
And I saw you there babe
And you were swimming in blood
Alright...
Pretty baby don't you blow my high

You know your religion is a lonesome lie
Our barefeet are on the ground
But while my head's in the sky
Your head's in the grave
And still you don't know why
Alright...
Pretty baby all dressed up in black
Your make-up is on
And your hair's rolled back
But it ain't time no time to go out on the town
Take your black dress of
And let your long hair down
Alright...
