There are people who want to kill me all around the world

There are people who want to kill me all around the world

I know about the UFO's
I know about the UFO's
I know some things I know I shouldn't know

I know a woman who can see all around the world
I know a woman who can see all around the world

The world is full of electric signals that only she can see
And she tells me Heaven's angels are watching over me
There's a radio wired to my brain
An experiment I can't explain
I can hear the sounds of UFO's
I can hear the sounds of souls crying

We are trapped inside a prison all around the world
We are trapped inside a prison all around the world
And we're the ones who hold the keys
We are our own worst enemies
We are trapped inside a prison all around the world

I know about the UFO's, I know about the mind controls
We are trapped inside a prison all around the world
I know about the UFO's
I know some things I know I shouldn't know
I know some things I know I shouldn't know
