Suicidal cement screams  
I seen 'em all inside my dreams  
I see them coming through my head  
Make me wish I was dead  
Ghosts chase silent foes  
I never knew I'd get aboard  
Cover me in ice  
Til the edge of time  
Can you see the stream, drowning in  
The deep  
Something so bad  
Can you see the ship, sacrifice  
Myself  
Grab you instead  
Get onboard

Painted child seldom seen  
I've gone another way to be  
Put the mark upon my head  
Make me wish I'm dead  
The servants never called  
The dog's been put in chains  
They can't hear you anymore  
They've all gone straight  
No matter what they say  
I guess it's really sad  
To never get across  
I looked into the eyes  
The same as before  
But I just got lost  
Get on board
