He's quiet on the inside
Something from his past
Come on the surface
But that's never gonna last
Say one wrong word
Something nobody knew
What's in his head
No one has a clue

He's a little volcano
Watch him blow his mind
He walks the earth
Fires burn in his side (eyes)
Little volcano
Watch the lava flow
What makes him mad
I never know

Don't push him too far
Stay out of his way
With his fire and hair
He's coming to play
You said the wrong thing
Now he's right in your face
He just might explode
You're getting on his case

He's a little volcano
Watch him blow his mind
He walks the earth
Fires burn in his side (eyes)
Little volcano
Watch the lava flow
What makes him mad
I never know

Little volcano
No no no
Little volcano
Go go go
Little volcano

He's gonna blow
Aahhhh!

He's a little volcano
Watch him blow his mind
He walks the earth
Fires burn in his side (eyes)
Little volcano
Watch the lava flow
What makes him mad
I never know

Little volcano
Watch him blow his mind
He walks the earth
Fires burn in his side (eyes)
Little volcano
Watch the lava flow
What makes him mad
You'll never know
