Ev'rybody loves somebody sometime

ev'rybody falls in love somehow.
Something in your kiss just told me
my sometime is now.

Ev'rybody finds somebody someplace

there's no telling where love may appear.
Something in my heart keeps saying
my someplace is now.

Ev'rybody loves somebody sometime

and although my dream was overdue

your love made it well worth waiting

for sometime is now.

If I had it in my power

I'd arrange for ev'ry girl to have your charms.
Then ev'ry minute
ev'ry hour

ev'ry boy would find what I found in your arms.

Ev'rybody loves somebody sometime

ev'rybody falls in love somehow.
Something in your kiss just told me
my sometime is here.
