#### CHORUS

Face to face with death and panic fills the skies  
Never surrender 'til victory is mine  
Oppression through the wicked man, many will die  
Final hour he'll pay the price, revenge is on our side  
Face to face with death and panic fills the skies  
Never surrender victory is mine

Before the final slaughtering, evil spirits rise  
Get ready filled with violence, face the angel of death  
Takes the lives of innocent, dread will reign the fight  
Horror show won't pass away, powerful surprise  
I don't want to die, 'cause that's not the way out

Repeat Chorus

Broken skulls and clotted blood, no sign of victory  
Mother earth won't be reborn, the trace of agony  
Day of final judgment, monarchs rest in peace  
Eradicate the source of evil, free you from the thieves  
I don't want to die, Never Surrender your fuckin' life

Repeat Chorus
