Late at night into the hall
Now it's time to have a ball
Systems loaded, ready to strike
Sound will fill the eternal skies

CHORUS

Infernal Crowd are you ready to shout
Ignite the fire and scream to our sound
Heat raising it's high over ground
Thrash 'till death there is no doubt
Thrashing Through The Pit
Thrashing Through The Pit
Thrashing Through The Pit

Show begins, set your demons free
For the fight with leather and spikes
Smashing crashing, wall of death
You're the best fuck the rest

Repeat Chorus

Job is done, field of destruction
Time to hit the road again
See us soon in another town
We fulfill our destiny

Repeat Chorus
