Saturday night, I'm alone in my room
I smell and I stink, I'm waiting for you
Two hours late, and you're still not here
For all I know you could have disappeared

I'm calling your phone, you're not answering me
Sick and worried, like a bad allergy
I feel so lonely, all alone
Getting tired, and chilled to the bone
But you know that I am waiting here for you
And you know that's what I'm always gonna do
So won't you answer me?

Did you fall asleep, did you fall asleep (Ohh Ohh)
Did you have a dream or did you think about me? x2

As time passes by, still you make no sign
Cold on the inside, going way out of line
It's getting dark, and now I'm falling asleep
Be sure to wake me, from having a dream
But you know that I am waiting here for you
And you know that's what I'm always gonna do
So won't you answer me?

Did you fall asleep, did you fall asleep (Ohh Ohh)
Did you have a dream or did you think about me? x2

Did you fall asleep, did you fall asleep (Ohh Ohh)
Did you have a dream or did you think about me? x2

Did you fall asleep.
Did you have a dream
Or did you think of me
