Would it all be worth as much, if I told you the truth?  
Modest for and out of touch, transmission was lost  
From China, with love  
If I doubt I'd come, tell all your friends  
Could he just once, leave me alone?  
That's cool, but I'll be there when the end is  
I'll find out when you're dead if you were ever  
That special  
I'll find out when you're dead if you were ever  
That special  
Your words leave sincere in sideway incision  
Cut me, coathanger and leave the mark  
A memory of you  
From China, with love  
(au revoir, and goodbye)  
I'll find out when you're dead if you were ever  
That special  
I'll find out when you're dead if you were ever  
That special  
I'll find out when you're dead if you were ever  
That special  
I'll find out when you're dead if you were ever  
That special  
From China, with love  
From China, with love  
(hello? au revoir, and goodbye)
