

## The Prize Fighter Inferno

### "One True Cause"

Visit "[One True Cause](#)" on [MotoLyrics.com](http://MotoLyrics.com)

It's a football match,  
When we pass the hat it's a break from the day to day,  
We're the chosen few, but support  
And you can march on our chosen way.  
Simplify, O simplify, it's easier to say  
One side is good and another is bad when the facts are  
far way

Chorus: We're fighting for the one true cause,  
It's all that we have known,  
All we say is there's one true way,  
And that way is our own, me boys,  
And that way is our own.

We're aided and abetted by the bogeymen  
And the politicians too  
Gas on the fire makes the flames burn higher  
And all our dreams come true  
Sharon recruits for the Hezbollah and Omagh for the  
Prods  
Atavism lives and it rules the day  
And we worship ancient gods.

History is a lovely word, it's power in disguise,  
Handled well, we can hide the smell  
When the smoke gets in your eyes  
We'll raise a glass up to the past and toast to auld lang  
syne,  
And power to the one true cause, which means to me  
and mine.

If I have Right upon my side and my rationale is sound  
It might not matter all that much if you're six feet  
underground.  
It might not matter what side I'm on or if what I say is  
true  
One thing is for bloody sure, it's the other side from  
you.
