

The Prize Fighter Inferno "The Margretville Dance"

Visit "[The Margretville Dance](#)" on MotoLyrics.com

Between you and me
And how cautious we have become
Leaving you hooked and off the floor
To think the better you might have known with age

With every breath
You wake a picture instilled the way
I wish you had lived with cause through pain
No, no matter you died the same machine

So tell me like you want to
(Here we come to rock your body all)
If you want me too
(Here we come to rock your body all)

So tell me like you want to
(Here we come to rock your body all)
If you want me too
(Here we come to rock your body all)

So tell me like you want to
(Here we come to rock your body all)
If you want me too
(Here we come to rock your body all night)

When who's to blame
In a matter of fact I might
Purely suggest we tell the truth
From here on out we walk the straight afraid

What will they do should we weather this new reply?
Patiently wait your proper end
From shameless motive to hollow sin
You're waste

So tell me like you want to
(Here we come to rock your body all)
If you want me too
(Here we come to rock your body all)

So tell me like you want to
(Here we come to rock your body all)

If you want me too
(Here we come to rock your body all)

So tell me like you want to
(Here we come to rock your body all)
If you want me too
(Here we come to rock your body all)

So tell me like you want to
(Here we come to rock your body all)
If you want me too
(Here we come to rock your body all night)

'Cause I don't want you to come around here
I just want you to go
I did not want you to come around here
I just want you to know

Is this the way you, is this the way you
Is this the way you watch the body die?
Is this the way you, is this the way you
Is this the way you watch the body die?

'Cause I don't want your
Ooh, I said love before you rot
'Cause I don't want your
Said love before you rot

'Cause I don't want your
'Cause I don't want your
'Cause I don't want your
'Cause I don't want your
'Cause I don't want your
