There's a light in the she'd that should help you find
your way.
And through this door you deserve a beating through
the Machine.
And little did you once know in the race for the
telephone.
In the dark they have watched us from here beyond the
grave.
To bare the marks of His work are the Watchmen of our
ways.
That which we feel untrue, if it's me than it isn't you.
Lay-down, relax, come on, how?
What you thought once was yours is ours now.

Stay with me to guide this dream
Before they bury me.
I'll be waiting up all night for you
In a nightmare that was made for me.

Stay with me to guide this dream
Before they bury me.
I'll be waiting up all night for you
In a nightmare that was made for me.

In the call of her screams should we leave and let them
be?
Is her life worth as much as we once wished to believe?
So is it or isn't so?
Am I dead now here in the snow?
In the foul of their play will then justice be engraved?
To bare the walk on the way to the killer and his blade.

So is it or isn't so?
Am I dead now here in the snow?
Lay-down, relax, come on, how?
What you thought once was yours is ours now.

Stay with me to guide this dream
Before they bury me.
I'll be waiting up all night for you
In a nightmare that was made for me.

Stay with me to guide this dream
Before they bury me.
I'll be waiting up all night for you
In a nightmare that was made for me.
