She came back to me  
At least for a while  
She brought with her some tests  
She said as she smiled

She just got back for me  
I've started to get used  
Knowing that she's been  
So loving and so true

I'm jealous of you  
And the love that you feel  
So early in this year

So suddenly with you

I just got back for you  
Now the tests are concluded  
I am the first to know  
There's nothing inside of you

Leaving me forever  
Again, good luck to you too  
Now I dream of me  
And what's happening to you
