Forty days in the desert
Forty nights there too
Forty days and forty nights
Wasted crying about you
Say you want to leave?
Go on, go now. Just leave a couple smokes
I said the longer I go on,
The less I know.
Last bit of sunlight creeps on in
Edging the remnants of my friend
We wound up flailing in the darkness
Then got short changed on the promise
That we'd see the promised land.
CHORUS: But don't take me off your heart old man,
Though you frown on what I'm not,
Disapprove of what I am.
Forty days in the desert

There's no mercy round the bend
Think it's time I learned when to say when.
Been looking for Jesus every place
But only found new lines on my face
I'd always hoped for what was right,
But forty days and forty nights
Whistled while they toted my hope away
Â– REPEAT CHORUS)
So is there a prayer for me or you?
You're scowling and drunk on the far side of the
room. But I got some angels over there,
They're sure making lots of noise
Â– Guess I got you and the good Lord confused.
REPEAT CHORUS)
