I love how well you fit into my arms.  
Your perfect body sinks into my heart.  
Now tell me if you were to change who you are,  
Would you fit as well as you do here tonight?

And it hurts me when you say you don't like how you  
look.  
You're beautiful so why can't you see, that it,  
Hurts me when you say you don't like how you look.  
When i'm with you there's no place that i'd rather be.

You're the best thing to happen to me in 16 years.  
No i can't dream of my life without you.  
Now please understand i'll never treat you wrong.  
I hope you can finally see now, who you are.

And how it hurts me when you say you don't like how  
you look.  
You're beautiful so why can't you see, that it,  
Hurts me when you say you don't like how you look.  
When i'm with you there's no place that i'd rather be.

Everything about you i can't believe that you chose me.  
Your hips, your lips, and your personality.  
Everything about you is so damn perfect for me.  
I love, i said that i love, i love who you are.  
i love who you are (x3)  
love who you are
