All set  
Systems on and ready  
Move forward  
Level reads ok  
Click, drive  
Prepare to break away  
One target  
Today is d-day

Soaked in lies and fears  
After all these years  
When the sun will rise  
The monster's gonna die

From now on  
Things are gonna change  
Coz we know why and how  
Who you really are  
From now on,  
Things won't be the same

Coz we know what you're doing  
And we know where you're hiding  
We know everything

Next step  
Engage all procedures  
Code, enter  
Signal loud and clear  
Star-shell  
Sparkling high in the sky  
All together  
We'll make this dream come true

Raised in blood and tears  
After all these years  
As teh sun goes down  
A new world comes along
