"Hot Air Balloon"

In the light of the moon, too soon
In a hot air balloon, he crossed the sea
Once an airship tycoon, turned buffoon
Leaving his home marooned, attempted to flee
The life he's begun.

In the blink of an eye, he spies
The shore where he's fantasized, his baby to be
Turns his gaze to the skies, he cries
Just give me one more try, to chase down my dream
Before I am done.

Unsure from the day, she prays
Hoping their getaway, will still come to be
Watching stars ricochet, she strays
Beyond the alleyway, where no one can see
Not anyone.

In the blink of an eye, she spies
The spot in the foggy skies, she's been longing to see
Camouflaged by the tides, she hides
Where the water and wind collide, she's soon to be free
From what she's begun.

In a hot air balloon
Corrinado flies over the sea
for Leora today
And in one day
He went from his cell to the sky At his last chance to fly
