### "Three Wishes"

I wish I was young.  
But still I'm naive.  
I wish I was rich.  
But for now it's a dream.

If I had three wishes, I wish I could see you again.

I wish I had listened.  
To all that you told.  
I wish I had learned.  
From all that you know.

If I had three wishes, I wish I could hear your voice.

I wish I had told you.  
But you may not have heard.  
I wish you can see me.  
As I fly like a bird.

If I had three wishes, I wish you could be here with me.
