She sits beneath the python tree
Her world's a sepia drug
A tempting promising mood

My every move she squeezes me I cannot get enough
Can't help but covert you.

Brave lover strange other pulling me in
Tear down the temple of the monkeys brick by brick
And dace in invade the ocean
And satisfy your greed
A moment for a lifetime we are blessed and we are
empty

Your face is like a beautiful sunrise
Your eyes are like a doe in the headlights
Can't help but covet you my love

Pinned down and hungry an ambitious thought
Don't forget to smile as she lays blue petticoat law
unsocial
Heavy world
I've an empty head
And I can't remember what I'm meant to have said...

Your face is like a beautiful sunrise
Your eyes are like a doe in the headlights
Can't help but covet you my love

Your face is like a beautiful sunrise
Your dancing like you're born under a red light
Can't help but covet you my love

Everything's moving the lights shifting it all looks the
same everything's
Pushing and puling the same way all I do is feel
everything is pushing
I can feel it pulling everything is drifting can't tell if it's
real
