I'm going in
I'm going in
Tie a rope around my waist
And make it tight

I'm going in
I'm going in
See the most space in his eyes
Where I noone saw some light

I'm going in
Plow me down
Don't let go
Please stay around my friends

One talk
Means I'm running out of here
Two talks mean I
Found something that's spinninga
And I'm holding it with care

Keep a feature around the fire
Singing songs
'Til I return

I'm going in
I'm going in
Tie a rope around my waist
And make it tight

I'm going in
I'm going in
See the most space in his eyes
Where I noone saw some light

'Til too
You do the same for me
Where the lonely letter live hurry
And on my eyes

With things that are for two

You took me by the hand
Whisper in my ear
There's life out here

We're... going in
We're going in
Tie a rope around your waist
And make it tight

We' re going in
Going in
Try to love someone
Who's hiding out
In the corner of their lives
Bring a torch
Bring a flame
With flowers from your garden
Comes, it' s all the same

With every act of kindness
You bring down a wall... a fear...

We're going in
We're going in
Tie a rope around your waist
...

Going in
Going in
Tie a rope around your waist
And make it tight

Going in
Going in
Try to love someone
Who's hiding out
In the corner of their lives
...
Ad libidum
