[Hook] x 2

As Iâ'm sitting here, just thinking
Lost my thoughts, not blinking
Cause Iâ'm looking for you
All these long nights man, damn I gotta stop drinking
So tell me where to go now
Itâ'd be better if you know how
Gotta stay in my zone now

Day dreamin, no lupe, if you think like me, touche
Cause some of these thoughts in my head so hard
I believe my head like a tupe
So many thoughts, so little time
Couldnâ't believe I wrote so many rhymes
Couldnâ't believe we fought so many times
But at the time you would think that, I be lying
How can I sit here and blame you
How can I stay around you, I hate you
Like you, but fight you
Think about the past, man I wanna rewrite you
Sorry that I always gotta feel this way
Ok, maybe not everyday,
But no way, will I ever get played if you know me
I got something to say, may day, Iâ'm crashing
I need mental relaxing, cause I see too much acting
Man I thought it was all about the passion
Well I guess that Iâ'm wrong, right?
Well I guess I gotta be fighting the wrong fight
Then I guess I gotta be shining the wrong light
Let me grab another bottle, long night

I donâ't wanna be bothered sometimes

I don't wanna pay attention to some signs
Cause some signs be them times
When you cry and ask why
Things gotta be the way they be
When things gotta happen they always involve me
Then I always gotta ask why you gotta test me
Let's stack up the load, put it on ess vee
Now the weight of the world is on my neck
What they really want from me is just a check
Hands all out, but none of them help
If I was on fire, they would let me melt
Never did it for self, always looked out
Always proud, never had doubt
I can make it rain but I'd rather let it drought
Let the world run dry and I bet they hear me now
I can't believe it, sometimes I just wanna leave it
Leave the game alone cause it can make you broke
Man I don't need this
Yep that's my thesis and I don't give a damn what
they think
My lifestyle gonna tear you to pieces
That's why I gotta pour you a drink

Gotta stay in my zone now

I don't know just where to go
Life is such a lonely road
Everybody shooting flows, nowhere to turn, nowhere to
go
But it's natural, to feel against the ropes
When success is the name of this open road
When everybody wants to be the main character
And your hope is starring role you no amateur
You telling life is not that player in the second stone
It's funny how these thoughts can lead you to a
different zone
