Generation sex
Respects
The rights
Of girls
Who want to take their clothes off
As long as we can all watch that's okay
And generation sex
Elects
The type
Of guys
You wouldn't leave your kids with
And shouts "off with their heads" if they get laid
Lovers watch their backs
As hacks
In macs
Take snaps
Through telephoto lenses
Chase Mercedes Benzes through the night
A mourning nation weeps
And wails
But keeps
The sales
Of evil tabloids healthy
The poor protect the wealthy in this world
Generation sex
Injects
The sperm
Of worms
Into the eggs of field mice
So you can look real nice for the boys
And generation sex
Is me
And you
And we
Should really all know better
