Please don't look at me that way  
You'll only make me want to say  
Something I will regret  
You are April you are May  
What a stupid thing to say  
Just forgive me and forget  
That I ever opened my mouth  
And let it all come out  
Let it all flood out

I am worried for your health  
Put something warm around yourself  
Don't let your feet get wet  
I'm in love and I'm in pain  
If I say something stupid again  
Oh just forgive me and forget  
That I ever opened my mouth  
And let it all come out  
Let it all flood out  
Queen of the South  
She has opened my mouth  
And let it all come out  
Let it all flood out

Something is getting in the way  
What it is I cannot say  
I wish we had never met
