"Redemption"

Ive seen things that would make your blood run cold--a
raging vigilante brings forth terror--reborn soldier,
controlled
Operation--combat ready, blood cold, for protection--
armed and hostile, life or death, confrontation--motive
lethal, kill you,
For redemption--two hundred dead one thousand
wounded--more lambs to the slaughter, human
carnage--squeezing off rounds at
Someone with hatred--his head blown off for
threatening your life--black hills, red skies, conflict,
warfare tactics--increase
Driven hunger, joining forces--chaos, noble hunter,
indignation--justice, anger, menace, infiltration--
reborn, soldier,
Controlled, operation--combat ready, blood cold, for
protection--armed and hostile, life or death,
confrontation-- motive lethal,
Kill you, for redemption--more lambs to the slaughter,
human carnage--things that would make your blood
run cold.
