Huge tailspin-is the world gonna win?  
Is the nation gonna open up and let us in?  
Hard luck! Your policies suck-  
Your rhetoric will save your face, but not your skin

This time-it's hard to define  
So watch the leaves turn brown for the last time  
Too late! You've sealed our fate-  
No returns, no emergency debate... but wait!

I hate unhappy endings-and there doesn't have to be one!

Tailspin-your hair's getting thin

\*\*\*\*

\*\*\*\*

Your rhetoric will save your face, but not your council estates

Gee-life is cheap!  
The forests pine and the willows weep  
Checkmate! You've sealed our fate-  
The world is way past its sell-by date

Tailspin-is the world gonna win?  
Tailspin's on the outside looking in  
Tailspin, I repent my sins  
But when I get to heaven will you let me in?  
Tailspin, save our kin, save our skin...

The message we are sending is a very real one  
The world we are defending could be a very green one  
We hate unhappy endings-and  
**THERE DOESN'T HAVE TO BE ONE!**
