Verse 1:

Boy you played me, now I play you
And that's just something that a bad bitch is suppose to
do
You fell in love, nigga you got attatched?
That was your fault, you need to fall back
I'm young and heartless, I don't give a fuck
Got my nose in the air with my middle finger up
Can't be touched, you tried to cuff me
Gave me everything you had but now it's all bad
Now you sad but no sympathy for you
You was the one playing all them hoes too
I think like a nigga, you got hurt like a bitch
Got my head in the game, I'm just trying to get rich
And you found out I was with your best friend
But fuck you nigga you aint my man
Get with the program, took the money and ran
Playing you was a part of the plan

Chorus:

You could never get the best of me
(We don't give a fuck, give a fuck about a nigga x2)
repeat 2 times

Verse 2:

I played you I'm a bitch
Nigga you loved me but I'm a hoe, ok
What about that time when I hit yo line
And that bitch answered your phone
Yaaa nigga you got me fucked up because you got
caught up
And now you aint cashin out, fuck what you talkin bout
I'm trying to get rich, you can get off my clit
You aint even bout that action
That dick is what you're lacking yup,
I'm the last of a dying breed
Best believe you wont find nobody better than me and
nigga
I'm actin shady but that bitch bout to have yo baby

You crazy, you played me
Hope she was worth is nigga cause you aint worth shit
She can have you and your empty wallet too
Yup you just mad cause we went through
BRRRRRRRA
I'm like nigga FUCK YOU

Verse 3:

How does it feel? yup I bet it hurts
Walking around feelin less than what you're worth
Wanna be my man, betta put in work
Throw me stacks wanna cuff plus tax
I want new J's and a diamond ring
I got expensive taste, I like them finer things
You're looking for a friend, then bitch get a dog
I paid the price to be a fuckin boss
Yeaa you sprung but I'm some other shit
House of diddy bad bitch
Yeaa I know you miss this
My hips, my lips, my switch, my swagg
All yo friends tellin you "she bad. she got a friend.
Put you on her sis"
Me and my sis move mean like this
Yeaa you mad cause you lost the best thing you ever
had
But it's over. your loss, too bad!

Outro:

He was just a phase, he really didn't phase me(x4)
You could never get the best of me
He was just a phase, he really didn't phase me(x2)
