the flowers falling from your hair they left a trail behind  
you  
with just one look, with just that stare, I'm paralyzed, a  
statue

so please just stay don't go away we'll make it hard to  
find you  
needle come back from the hay stack, and draw my  
blood to write you

breathe it in, don't look back and just begin  
and breathe it in, the past is past its been turned in

on a tuesday in october can I waste your time with a  
cheesy line  
it was cloudy you were moody  
not a star in sight so we wished on a satellite

and though i know we haven't spoken yet i'm sure your  
witty  
just lead me out through my window and take me to the  
city

well drive the streets our song repeats  
the sun flashes by too fast

on our way home we'll find a bike and roll around in the  
grass

so, breathe it in, don't look back and just begin  
and breathe it in, the past is past its been turned in

on a tuesday in october can I waste your time with a  
cheesy line  
it was cloudy you were moody  
not a star in sight so we wished on a satellite

an orbit burning sparkling attracting falling dissolving  
10 9 8 0

breathe it in, don't look back (look back look back look  
back)

on a tuesday in october can I waste your time with a  
cheesy line  
it was cloudy you were moody  
not a star in sight so we wished on a satellite

a satellite (x3)  
so we wished on a satellite
