"We Assist Death"

Incorruptible legion, Hell's unleashers.
Spirits free, proud, and deathless.
Heart of iron, histories tyrants,
We won't live forever but will die, trying.

No surrender, no retreat,
We lay waste to city, bring mountains to our feet.
Commanders of chaos, wills of steel,
Never surrender, weaken, or kneel.

We assist death, Bearers of chaos.
We assist death, Hammers of the ancient gods.
We assist death, Hell's unleashers.
We assist death, bounded through the ancient laws.

We assist death, to death or glory,
We assist death, masters of disorder,
We assist death, Bringers of abyssic flame.
We assist death, tyrants of war.
