

The Professionals "Madhouse"

Visit "[Madhouse](#)" on MotoLyrics.com

Everyday is the same in here
I think I need some air
You're telling me that I'm mad
But I know that the pills are bad

Help me, sonny, take me away from here
Help me, sonny, you don't have to care
Is anybody there?
Does anybody care?
Is anybody out there?

ECT through my brain
It was made to take the strain
Hotheads full of fear
They never, never get out of here
Help me, sonny, take me away from here
Help me, sonny, you don't have to care
Is anybody there?
Does anybody care?
Is anybody out there?

Is anybody there?
Does anybody care?
Is anybody out there?
Is anybody there?
Does anybody care?
Is anybody out there?
