Watch the sun, IÃfÃçâ, -Ã™ m so bliss through the
open morning sky
Got the sounds through in my head
It must be the northern sign
Shout it out on the way back home, down the open
mount
I can still remember, theyÃfÃçâ, -Ã™ ll never catch us
now

Yesterday, I was working for the night
Yesterday, I was feeling out of sight

Northern Slide, keep on sliding
Northern boys, keep on fighting
Northern girls, keep it at it
Northern Slide goes
Is anybody gonna know?

Work out through the girlish town on the other side of
the world
I guess you remember all the silly girls
They just say itÃfÃçâ, -Ã™ s up to up, but they want
just to fight
We canÃfÃçâ, -Ã™ t fight, IÃfÃçâ, -Ã™ m going in at it
all the way through the night
Yesterday, I was feeling out of sight
Yesterday, I was working for the night

Northern Slide, keep on sliding
Northern boys, keep on fighting
Northern girls, keep it at it
Northern Slide goes
Is anybody gonna know?

Northern Slide, keep on sliding
Northern girls, keep on fighting
Northern boys, keep it at it
Northern Slide goes
Is anybody gonna know?
Is anybody gonna know?
