What up hops? Time to get paid again  
Crowd growin' shoulda been knowin'  
You should have stayed and when  
I told you I'll be back in full color  
Look at yourself ummm wella  
Is what you said as you bop your head  
To a new groove that improves that movement  
Don't worry there's no way I'm losin'  
It's down pat like paint and shellack  
And as a matter of fact  
I'm wearing timberlands roof of the world full length  
And I'm kickin' it on the strength

On the strenght  
Straight across the counter  
On the strenght  
No prescription at all  
On the strenght  
Tylenol, Codeine  
On the strenght  
You see what I mean, Dig this...

Prohibit, exhibit spirit I share it  
The laws a jah me father and I live it  
Rules from a man with undestanding  
Sing and bring souls ring about everything  
Being started, very underrated  
Rhyming all about yourself it outdated  
And you waiting, anticipating  
For something dope and DEF and innovating  
>From me you see it's not easy to be  
The last lion from Mount Zion  
Hard like iron  
Never give up I just keep on tryin'  
Free as a bird now the world is safe  
And I'm stone cold kickin it, on the strength

On the strenght  
Straight across the counter  
On the strenght  
No prescription at all

On the strenght  
Tylenol,Codeine  
On the strenght  
You see what I mean,Dig this...

Shakers be,shakin',people be,breakin'  
Show so nitro,girlies be faintin'  
Medics be layin'  
They know I'm not playin'  
On the strenght,you know what I'm sayin'?  
Strenght is the power,all on the hour  
Or force do anybody got strenght?Of course!  
I'm gettin hoarse cause it's pumpin like the feds  
>From each and every corner people boppin' their  
heads  
Instead of arguing,bitin',fightin' and fussin'  
You're Afro-American so won't you stop rushin'  
The rap that I'm bustin,so dope it's disgusting  
Trustin' what's in store for sure  
As you and yours fill all dance floors  
Cause when GET FRESH rain,we storm  
Or work on an encore while we're on tour  
Or like I said to you once before  
Wearin' Timberlands Roof of the World,full length  
And I'm stone cold kickin' it

On the strength
