Dont you get sick of it  
Stuck in the thick of it  
Making new friends you dont need  
Isnt it amazing how  
Everyone's crazy bout  
Violence they cant concieve

Well i hung around like another pronoun  
Familiar but lacking a name  
It was good enough for me

Things never shared  
Things that dont mean much to me  
Things never shared  
Things that dont mean much to me

I'm on my guard  
Wait until you see  
Sometime  
Whats in my heart  
Its good enough for me
