pausing briefly at the party  
always drop your guard  
morning shock is a treatment  
purchase pills from god

breathing seems like an arrival  
no more waiting to divide  
every shadow has a reason  
every light source decides

can you spare a diamond  
if you can rust with the car  
that's the part i like best  
let everything just I\_\_\_???

now you know seems impossible  
does it seem impossible to you now  
now you know seems impossible  
does it seem impossible to you now

and everyone tells you that everyone's telling you lies  
and that story you made up is sounding too much like  
my lie  
you put it all down on paper then set it on fire  
you cut it all off when your \_\_\_\_\_???

called you a liar  
yeah everyone's telling you everyone's telling you lies
