[Intro]

I just want us (x2)

[Chorus]

You me all this trust
I find you're the one
You ,all I got is you, all I got is you
With me you reside clock ticks you're on time
I just want you
You, you're my baby
I just want us

[Verse 1]

As the chemistry fades I'm holding on to all the loving
that memory made
Honestly regarding women I got plenty for days
You felt consumed by 'em all your tenants is changed
I mean from the looks you appear to be stressed
I guess that come from all the hurting in years and
neglect
You fail to notice all the beauty that mirror reflects
But if that's any consolation you're clearly the best
And words can't express what I feel
Instead of speaking your mind you supress what is real
Tell me that we need to talk and we finally have a sit
down
The more I open up it's like the less you feel
So we let our anger build awkward silence is what we
exchange
You said you need your space at least until you see a
change
Commitment's everything to you but shit for me is
strange
Now blind just got a different way of seeing things

[Chorus]

You me all this trust
I find you're the one
You ,all I got is you, all I got is you
With me you reside clock ticks you're on time
I just want you

You, you're my baby
I just want us

[Verse 2]

On your worst days is what my mind affected
I tried cheering you up displaying signs of effort
Established in 05 Nas 2012
We came a long way in terms of all the time invested
Every anniversary you got a diamond necklace
You possess the same trace that I find impressive
We argue I leave the house and get to drive all reckless
We got a problem Houston and it's the size of Texas
Start giving out best that's when the worse happen
But if it's worth your best efforts then it's worth having
Name a couple that hasn't and due to share problems
You make feeling like I'm the only one that care to
solve them
Your insecurities is obvious
I really tell you I love you because it's common sense
As your man I'm supposed to restill confidence
And by any possible mean you can accomplish it

[Chorus x2]

You me all this trust
I find you're the one
You ,all I got is you, all I got is you
With me you reside clock ticks you're on time
I just want you
You, you're my baby
I just want us
