"Feet In The Water"

Visit "[Feet In The Water](#)" on MotoLyrics.com

Still I sit here where you left me alone
My feet in the water, feet in the water
I took the road you didn't dare to go
Rocks on my chest and knees on bruises

We travel fast, my voice and me,
One penny in the pocket, penny in the pocket
It's enough to build my town
With guardian angels looking after you and me

I see the waves embrace the shore
I've got my feet in the water, feet in the water
I'm speaking in a brand new tongue
Confidence flying... high and free

We got to drive away to explore
World and it's corners, sides and corners
He felt safe with a loaded gun
Poor man's warranty, long-life warranty

I see the waves embrace the shore
I've got my feet in the water, feet in the water
I'm speaking in a brand new tongue
Confidence flying... high and free
(High and free)

Still I sit here where you left me alone
My feet in the water, feet in the water
