And it is true, now is too late to be alive  
Is so cruel the lover wait...  
And here I am behind the curtains of solitude  
Beyond the veil of my absent gaze  
Trying to forget the traces  
That you absence leave in me.

Thwart and deceived I am, bitter tears run my checks  
I can't forget you ephemeral words of farewell  
Awaiting the beloved who goes in the cold of the night  
I don't have her warm  
Every day agonise my love for her  
Now no more sadness tears  
No more disillusion, she is not going to return.  
Constantly in my head resound  
Hopeful words that you said,  
To made me trust in you, and you lie.

Liar, for you absence I will die  
My innards twist inside I'm desperate  
Lies, for you lies I want to die  
Understand it, without you I've lost the sense of life.

Awaiting the beloved who goes  
Into my frozen heart no rest place to  
All the pain that afflict to my poor heart  
Now no more sadness tears no more distress  
The desperation comes to take me far away  
How can I live without your love?  
How t olive without hope? That's my secret...

Every morning rise the sun  
Rise for me perhaps for one last time  
And the hope is almost lost  
The same last hope deceived for your words  
Words that hurt up to die  
The death, way to escape and find  
Go to sky and find your place to rest alone,  
Alone... awaiting

A place to rest where I can remember that I am...

Finally the pain is over my strength and my courage  
I want to take my last path  
Is better the death is better to die  
Forget the ends of my despair  
Lighten the penumbra of my heart  
But now is too late I'm convinced  
That there's no other way to scape  
A place to rest where I can remember that I am  
... Awaiting
